CANNABIS TREATMENT PLAN

MONTH 1: DETOXIFICATION & STABILIZATION

- **Drug Test:** Conducted to determine the precise level of intoxication.
- **Psychiatrist Evaluation:** Initial clinical assessment to identify co-occurring mental health conditions (specifically evaluating for Psychosis, Schizophrenia, and Bipolar disorder).
- **Medical Detoxification:** A structured 5-day inpatient medical detoxification protocol.
- **Withdrawal Management:** Continuous clinical monitoring and therapeutic support to safely manage withdrawal symptoms.
- **Medication Management:** Administration and adjustment of necessary medications to achieve psychological and physiological stability.

MONTH 2: REHABILITATION & THERAPEUTIC INTERVENTION

- **Psychotherapy Modalities:** Evidence-based sessions focusing on Cognitive Behavioral Therapy (CBT), Motivational Interviewing, and Cognitive Restructuring.
- **Psychoeducation:** Comprehensive educational sessions regarding the dangers of substance abuse and its negative impacts on mental health.
- **Counseling Ecosystem:** Structured individual counseling, interactive family therapy, and supportive group therapy sessions.
- **Life Skills Training:** Dedicated coaching to build adaptive and positive behaviors for daily living and healthy coping mechanisms.
- **Recovery Coaching:** Integration of the 12 Steps of Recovery framework, intentionally tailored to prevent self-hate and rebuild self-esteem.
- **Psychiatrist Evaluation:** Ongoing psychiatric evaluation to track therapeutic progress and adjust treatment parameters.

MONTH 3: RELAPSE PREVENTION & TRANSITION

- **Relapse Prevention Training:** Development of strategic individualized defenses, trigger identification, and long-term sobriety strategies.
- **Intense Family Therapy:** Deepened family healing interventions to repair systemic relationships and establish a stable, supportive home environment.
- **Exit Plan & Aftercare:** Formulation of a comprehensive medical discharge framework and community transition plan.
- **Final Psychiatrist Evaluation:** Concluding routine evaluation to certify clinical stability and clear the client for formal discharge.
